ACHIEVEMENTS

ABOUT KHANTEX FASHIONS LTD.

40 kilometers away from its Head Quarter in Dhaka, KhanTex Fashions Ltd is situated at Sreepur, Gazipur. It is a world class manufacturer and exporter of knit and woven garments. Under the dynamic leadership of Humayun Kabir — a highly experienced and illustrious garments personality — KhanTex Fashions is the flagship company of KFL Group. It's a USGBC LEED certified green factory. Keeping its commitment to the environment, the factory building is surrounded by greenery. KhanTex takes responsibility for a habitable future, doing everything to limit carbon emission. The whole factory is integrated to achieve eco-sustainability

From design to delivery, KhanTex has peerless integrity, where quality remains uncompromised. Since its establishment in 2018, it's been carrying out its responsibilities towards its people and the planet, while transcending through paramount customer contentment, nonetheless.

The story of KhanTex is being written by dedicated and skilled professionals, through utmost customer contentment. KhanTex believes in a pragmatic approach to bridge business and nature, keeping its workers in mind, for a win-win business & satisfaction.

FACTORY PREMISES

Keeping its commitment for a habitable future, the factory is integrated to achieve eco-sustainability. Environment friendly techniques and technologies — like solar panels, rain water harvesting and usage, daylight utilization, waste water management, energy efficient and noise-free machines, below 30 degree Celsius comfortable work-floor and many others — are at use to fulfill the devotion towards nature.

Most of the workers are advantaged by the ease of going to work on foot and riding bicycle. With its strategic location Khantex is credited for helping the advancement of the local livelihood.

KNITTING

Its state-of-the-art Knit Circular machines, produce knit fabrics for its own consumption.

PRINTING

Khantex's printing facility uses automatic printing machines, which can design and print in a variety of shapes and colors, and prints about 30,000 pieces per day.

GARMENTING

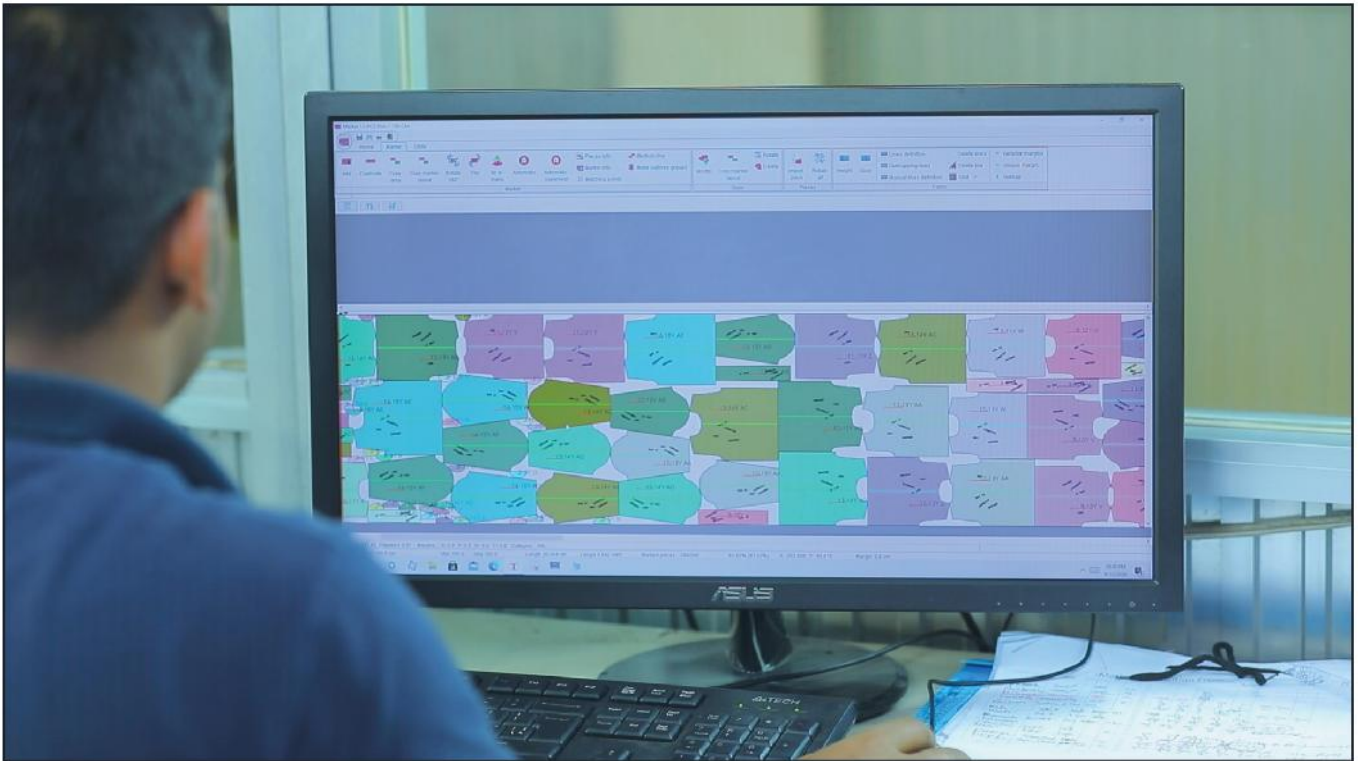

Merchandising

Here, a highly capable merchandising team with professional excellence at pre-production prepares the grounds for quality and speed in production.

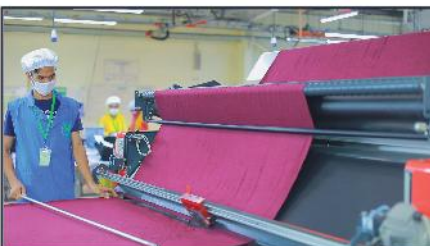

Auto CAD, Sample & Cutting Section

Its Sample Department maintains expertise, shaping the customer's interests into a decent design. Computer Aided Design AUTO CAD supports them to have intricate designs.

Here at Khantex, world leading computer-aided solutions help obtain patterns and markers. Thereafter, fabric cutting takes place in bulk ensuring optimal utilization of fabrics.

Sewing

It has 24 spacious sewing lines, currently in use, which is soon to be expanded to 50. At 12 of those, highly skilled and experienced craftsmen perform their best to produce 1 million pieces of knit garments per month.

At the remaining 12 sewing lines, half a million pieces of woven bottom garments are produced by equally competent artisans working with dedication and care.

Finishing

Following ironing, thread clearing and other invariable finishing touches, the final QC is done here to hit AQL1.5 uncompromisingly.

Buyers QC & Shipment

After the completion of production, the products are shipped with careful coordination.

Export

Currently, Khantex exports products worth 30 million USD each year.

PRODUCTS Woven

Khantex manufactures all kinds of woven bottoms -- like trousers, shorts, denim trousers, etc. For all the genders and age groups.

Knit

Khantex manufactures all kinds of knit garments--such as hoodies, jackets, trousers, shorts, tops, t-shirts etc. For all the genders and age groups.
